- **MySQL, PostgreSQL, MongoDB**
- **ReactJs, HTML, CSS, Bootstrap, Tailwind**

## STRENGTH

- Honest and trustworthy
- Hardworking with a smart approach
- Self-motivated and quick to learn

## EMPLOYMENT HISTORY

**Excellent Webworld** [Jan 2025 to Aug 2025](#)

**Developed booking platforms** with seamless browsing, selection, and multi-role systems to streamline interactions between job posters, providers, and clients. **Built e-commerce platforms with dual-role users** as buyers and sellers, while collaborating on code reviews, mentoring juniors, managing timelines, and **deploying projects** with smooth, low-downtime rollouts.

**Zealous System PVT LTD** [May 2022 to Jan 2025](#)

Experienced in developing web applications across domains like **E-commerce, Car Rental, Jobsite, Real Estate, LMS, and Salon Marketplace**, creating platforms for browsing, booking, purchasing, and admin control. Also built an LMS using Node.js and Express.js for assignments, exams, and results, and managed **zero-downtime deployments** with optimized server setups and monitoring.

**Harmis Technology** [May 2019 to May 2022](#)

Developed Laravel projects including **Real Estate platforms, Car Sale and Rent Booking systems, and Job sites**. Additionally, built an admin panel using React.js for a business portal with features like **location-based booking**, posting, and advertising, fully integrated with the main admin portal.

## PROJECTS

### [Ecommerce \(C2C, ShopHabby\)](#)

**Developed an e-commerce app** where sellers create products and send deals to buyers, with inspectors verifying products before purchase. Implemented secure payments with admin-managed commissions, **payout requests, and automated invoice generation**.

Experience style in your natural habitat. Habby is the hybrid ecommerce platform that turns restaurants, hotels and space into showrooms, allowing customers to experience products before they buy them online. Also managed **server setup and code deployments**, ensuring smooth rollouts and stable application performance

### [Salon Marketplace \(Tonstyle\)](#)

Architected an innovative salon booking platform from scratch, **involving client meetings, process planning, and execution** to align business needs with technical delivery. Built features for salon admins to manage services, customers to book via profiles or custom websites, integrated **Stripe for automated revenue sharing**, and handled server setup with smooth code deployments.

### [Service Provider Platform \(YedExpress, Asistee\)](#)

Engineered a dynamic service provider app enabling providers to showcase services and portfolios, while **customers discover and book nearby services**. Implemented timeslot-based booking for **seamless scheduling** and improved user experience.

## DECLARATION

I state that above facts are true, correct and complete to the best of my knowledge and belief.

YOURS SINCERELY  
**HITESH DEVAIYA**
